1011 - 2.4m Wide Trough Slide

The Wide Trough Slide is a centrepiece attraction in any playground. Any slides allow children to loop up and slide down again and again. Slides are great for developing children's core skills as well as providing great thrills.

The wider trough slide adds an extra dynamic as it can allow two users to slide at the same time. This helps develop children's socio-emotional benefits and helps them cooperate together.
